

Gun Crime Incident Hot Streets

This map represents the number of gun crime incidents associated with street segments throughout Newport News during 2018 to 2022.

Gun crime incidents are disproportionately concentrated across a small number of the nearly 10,000 street segments that comprise Newport News' road network. Fully 80% of gun crime incidents during the period occurred on just over 9% of street segments. More than a quarter of all incidents took place on fewer than 1% of all segments.
